Notice regarding Issuance of New Shares and Secondary Offering of Shares

Mitsui Fudosan Co., Ltd. (the “Company”) hereby announces that its board of directors has resolved, at a meeting held on May 27, 2014, matters relating to the issuance of new shares and a secondary offering of its shares as set forth below.

Purpose of Financing

The Mitsui Fudosan Group (the “Group”), in order to pursue the innovation needed to create value in the coming era and to become “a Group that can achieve profitable growth,” has formulated “Innovation 2017,” its six-year, long-term business plan, starting from the fiscal year ended March 31, 2013. The Group has accelerated the pace at which it plans to “strengthen the competitiveness of its domestic business” and “develop global operations,” and has made stable progress so far in connection with this plan.

Meanwhile, the business environment surrounding the Group has changed dramatically since April 2012, when the Group formulated and announced “Innovation 2017”. The Japanese economy is well into its recovery due to a series of government measures taken under the administration of Prime Minister Shinzo Abe, “Abenomics,” and the quantitative and qualitative monetary easing that the Bank of Japan further implemented. It is expected that factors including the election of Tokyo as the host for the 2020 Olympics and Paralympics as well as the designation of national strategic economic growth areas will result in further enhancement of international competitiveness focusing on Tokyo.

The Group recognizes the opportunities afforded by these changes in its business environment. The Group will steadily implement its rich development pipeline including (i) mixed-use development

This document is a press release provided for the sole purpose of publicly announcing matters relating to the issuance of the new shares and the secondary offering of shares of the Company and not for the purpose of soliciting investment or engaging in any other similar activities within or outside Japan. Investors should carefully review the prospectus regarding the issuance of the new shares and the secondary offering of the shares of the Company as well as the supplements or amendments thereto (if any) prepared by the Company prior to making any investment decisions. In addition, this announcement does not constitute an offer for the sale or purchase of securities in the United States. The securities referred to above have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”), and may not be offered or sold in the United States without registration or exemption from such registration requirement under the Securities Act. If any public offering of securities is made in the United States, the prospectus may be obtained from the Company or sellers and will contain detailed information about the Company and its management as well as financial statements; however, the Company does not intend to conduct a public offering in the United States in connection with this matter.

projects in central Tokyo that highlight neighborhood creation in the Nihonbashi/Yaesu area, which were announced as the second stage of the Nihonbashi revitalization project and (ii) the large-scale commercial facilities located in the greater Tokyo metropolitan area and other areas. At the same time, the Group will further enhance its financial position to prepare to take advantage of new business opportunities due to the macro-economic changes described above. For these reasons, the Company has resolved the issuance of new shares and a secondary offering of shares.

For over 70 years since its founding, the Group has contributed to the creation of new value and markets by always thinking toward the future and operating its business innovatively. Moving forward, the Group will continue to challenge itself to create new value and aim to further enhance its corporate value.

1. Secondary Offering to cover the Over-Allotment

The Secondary Offering to cover the Over-Allotment as mentioned in “2. Secondary Offering of Shares (Secondary Offering to cover the Over-Allotment)” above may be conducted in Japan in conjunction with the Japanese Public Offering set forth in “1. Issuance of New Shares by way of Public Offering” above in a number not exceeding 10,000,000 shares of common stock of the Company, which the representative of the Japanese Underwriters for the Japanese Public Offering, will borrow from a certain shareholder of the Company, taking into account market demand for and other factors in relation to the Japanese Public Offering. The number of shares to be offered in the Secondary Offering to cover the Over-Allotment is scheduled to be 10,000,000 shares; however, this represents the maximum number of shares to be sold, and depending on market demand and other factors, such number may decrease, or the Secondary Offering to cover the Over-Allotment may be cancelled entirely.

In connection with the Secondary Offering to cover the Over-Allotment, the board of directors of the Company has resolved, at the meeting held on Tuesday, May 27, 2014, that the Company will issue 10,000,000 shares of its common stock to the representative of the Japanese Underwriters by way of third party allotment (the “Capital Increase by way of Third-Party Allotment”), with the payment date set to be Tuesday, July 22, 2014, in order for the representative of the Japanese Underwriters to obtain the number of shares necessary to return the shares borrowed by the representative of the Japanese Underwriters from a certain shareholder of the Company, as mentioned above (the “Borrowed Shares”).

Furthermore, the representative of the Japanese Underwriters may also purchase the shares of common stock of the Company on the Tokyo Stock Exchange, Inc., up to the number of shares to be offered in the Secondary Offering to cover the Over-Allotment (the “Syndicate Cover Transactions”), for the purpose of returning the Borrowed Shares. Such Syndicate Cover Transactions would be made during the period beginning on the date immediately following the last day of the Subscription Period for the Japanese Public Offering and Secondary Offering to cover the Over-Allotment through Monday, July 14, 2014 (the “Syndicate Cover Transaction Period”). All of the shares of common stock of the Company purchased by the representative of the Japanese Underwriters through the Syndicate Cover Transactions will be used to return the Borrowed Shares. During the Syndicate Cover Transaction Period, the representative of the Japanese Underwriters may not conduct any Syndicate Cover Transactions or may terminate any Syndicate Cover Transactions before the number of shares purchased reaches the number of shares to be offered in the Secondary Offering to cover the Over-Allotment.

The representative of the Japanese Underwriters may also conduct stabilizing transactions along with the Japanese Public Offering and Secondary Offering to cover the Over-Allotment. The shares of

This document is a press release provided for the sole purpose of publicly announcing matters relating to the issuance of the new shares and the secondary offering of shares of the Company and not for the purpose of soliciting investment or engaging in any other similar activities within or outside Japan. Investors should carefully review the prospectus regarding the issuance of the new shares and the secondary offering of the shares of the Company as well as the supplements or amendments thereto (if any) prepared by the Company prior to making any investment decisions. In addition, this announcement does not constitute an offer for the sale or purchase of securities in the United States. The securities referred to above have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”), and may not be offered or sold in the United States without registration or exemption from such registration requirement under the Securities Act. common stock of the Company obtained through such stabilizing transactions may be used, in whole or in part, to return the Borrowed Shares.

With respect to the number of shares obtained by deducting (a) the number of shares purchased through stabilizing transactions and Syndicate Cover Transactions that are to be used to return the Borrowed Shares from (b) the number of shares to be offered in the Secondary Offering to cover the Over-Allotment (the “Planned Number of Shares”), the representative of the Japanese Underwriters will accept the allotment under the Capital Increase by way of Third-Party Allotment and will purchase shares of common stock of the Company. Accordingly, all or a part of the shares to be issued under the Capital Increase by Third-Party Allotment may not be subscribed for, which may result in a decrease in the maximum number of shares planned to be issued under the Capital Increase by way of Third-Party Allotment, or in the cancellation of the entire issuance due to forfeiture of the right to subscribe.

In the event that the representative of the Japanese Underwriters accepts the allotment under the Capital Increase by way of Third-Party Allotment, it will use the funds obtained through the Secondary Offering to cover the Over-Allotment as payment to acquire the Planned Number of Shares.

With respect to the transactions mentioned above, the representative of the Japanese Underwriters will conduct these transactions in consultation with the other two Japanese Underwriters.

2. Changes in the Total Number of Issued Shares as the Result of Public Offerings and Capital Increase by way of Third-Party Allotment

Total number of issued shares at present	881,424,727 shares
Increase in number of shares as the result of the public offerings	100,000,000 shares (Note 1)
Total number of issued shares after the public offerings	981,424,727 shares (Note 1)
Increase in the number of shares as the result of the Capital Increase by way of Third-Party Allotment	10,000,000 shares (Note 2)
Total number of issued shares after the Capital Increase by way of Third-Party Allotment	991,424,727 shares (Note 2)

accepted to subscribe all the shares as set forth in “3. Issuance of New Shares by way of Third-Party Allotment (1)” above and new shares have been issued as a result.

3. Use of Proceeds

(1) Use of proceeds to be raised this time

Proceeds from the Japanese Public Offering, the International Offering and the Capital Increase by way of Third-Party Allotment estimated to be up to JPY 324,570,200,000 are planned to be used to pay a part of the amount of JPY 376,063 million of the capital investment plan for the fiscal year ending March 2015, which includes investments related to mixed-use development including office buildings and retail facilities such as Nihonbashi/Yaesu area, Hibiya area and Idabashi Grand Bloom, retail facilities across Japan including LaLaport Fujimi (tentative name), as well as logistics facilities, rental condominiums, hotels and resorts in Japan by March 31, 2015, with any remaining funds being planned to be used to repay our loans to financial institutions as they become due.

While the Group is currently conducting the measures set forth in “Innovation 2017,” its long-term business plan announced in April 2012, the business environment surrounding the Group has changed dramatically since the time of the announcement of “Innovation 2017.” It is expected that rail and road transportation projects and other social infrastructure projects focusing on Tokyo will increase in the future, in connection with the election of Tokyo as the host for the 2020 Olympics and Paralympics, and in connection with the designation of areas within Tokyo as national strategic economic growth areas etc., and the Group recognizes that business opportunities are now being expanded for the Group, which has been led several mixed-use developments and the creation of neighborhoods, such as Tokyo Midtown and Nihonbashi Muromachi, in the past.

The Group currently has a new development pipeline in Tokyo’s 23 wards for multiple purposes, including office buildings and retail facilities, etc., and the Group believes that the implementation of this development pipeline will lead to the creation of neighborhoods which will contribute to enhancing Tokyo’s international competitiveness.

The decision to make this offering was made toward the implementation of all of the development pipeline projects that the Group has planned, for the purpose of the appropriation of the proceeds for funds for the capital investment as mentioned above, and to further enhance the financial position in order to maintain a system which makes it possible to quickly take advantage of new business opportunities that are expected in the future.

Our capital investment plan as of May 27, 2014 (with respect to the amount already paid among “the amount to be invested”; as of March 31, 2014) is as follows (the below table shows, from among our important planned infrastructure projects, those where construction
